ODIS Service is required to perform key adaptations

The below instructions define the hardware requirements and registration process to utilize ODIS Service.

1.0 – Diagnostic Device Hardware Requirements

- Windows® 7 Professional 64-Bit or Windows 10® Professional 64-Bit.**

Note: Windows 7 support ends Dec, 2019.

- The Volkswagen VAS 6150E laptop and VAS 6160E tablet are recommended and available at <https://vw.snapon.com>

Search for Tool Number VAS6150E or VAS6160E

Note: This tool includes the VAS 6154 Diagnostic Interface Kit.

- Commercial laptops/tablets are authorized but should meet or exceed the VAS 6150E specifications. *E.g.: Windows 10, 8GB RAM, Intel® Core™ i5-6300U vPro™ 2.4GHz and a 250 GB SSD.*

2.0 – Diagnostic Interface Requirements

- The VAS 6154 Diagnostic Interface kit is recommended and available at <https://vw.snapon.com>

Search for Tool Number VAS6154

- A J2534 Diagnostic Interface can also be utilized and is available from numerous aftermarket suppliers.

3.0 – erWin Registration Process

- An erWin account is required to complete the ODIS Service Registration Process, **Step 4 below**. The registration is free at <https://erWin.vw.com> or <https://erWin.audiusa.com>. Click the My Account Tab and complete the registration.

4.0 – ODIS Service Registration Steps

- Logon to erWin, click the Vehicle Diagnostics & Reprogramming tab and complete the 5 Steps below.
- Step 1 – Independent Shop Registration - \$100 application fee.
- Step 2 – Request Security Certificate – One free certificate is available with registration. Additional certificates are available for \$600/year.
- Step 3 – Obtain Diagnostic License – Free
- Step 4 – ODIS Service Installation Instructions – Free
- Step 5 - Purchase Diagnostic Subscription - \$130/Week/Brand or \$900/Year/Brand
